Welcome to Person Centered Planning

Greg Fenton, Director
Illinois Department of Human Services
Division of Developmental Disabilities

July 2017

Life Choices System Transformation Recorded Series - Webinar 2
Person Centered Planning

What does it mean?

Why are we doing this in Illinois?

Can this be postponed until later?

What’s expected of me?
Person Centered Planning – What does it Mean?

• The balance between what is *important to a person* and what is *important* for a person

• It is a way to identify strengths, preferences, needs (both clinical and support needs) and desired outcomes of a person.
Person Centered Planning

What we want for all people with DD in Illinois to:

• Be **healthy and safe**

• Have real **relationships with family and friends**

• Have a **paying job if they want to work**

• **Make decisions** about their lives

• Have opportunities to **contribute to their community**
Person Centered Planning: Why Are We Doing It Now?

• It’s the right thing to do.

• CMS requires it in order to receive Federal matching funds.

• CMS regulation came into effect in March of 2014.
Person Centered Planning - Where Do You Fit In?

**Individual/Guardian** – drives the process by identifying strengths, preferences, needs and desired outcomes.

**ISC** – will service as the case management entity and will be responsible for ensuring the implementation of the Person Centered Planning process.

**Provider Agencies** – continue to provide service and supports.
