CLIENT/PATIENT ADMISSION DARTS DATA ENTRY FORM

PROVIDER: __________ UNIQUE CLIENT/PATIENT IDENTIFIER: __________

IDENTIFIER STATUS: D

D - The RIN is being used as the unique identifier.

RECIPIENT IDENTIFICATION NUMBER (RIN): __________

INITIAL DATE OF CONTACT: _____/_____/_____

The date of the initial contact means the first request for an early intervention or treatment service for the current episode of care, in which an appointment is made by the client/patient or someone on behalf of the client/patient. This date SHOULD NOT be the date of the first assessment, early intervention or treatment service unless that was the actual first contact with the client/patient.

OPEN DATE: _____/_____/_____

This is a key field for DARTS. It means the first date of service for the episode of care. For billing purposes, this is the first date that a service can be billed. Any bill submitted with a date that precedes the opening date will be rejected.

INTERNAL ID: __________

CLIENT/PATIENT TYPE: __________

T – Treatment I – Intervention O – Old Record

ASSESSMENT DATE: _____/_____/_____ 

This field collected in the client/patient demographic record and means the first date of the process required by Administrative Rule, Part 2060 to collect and interpret information from a client/patient to make an initial determination of alcohol abuse or dependence and to make a recommendation for placement into intervention or treatment services. For SUPR, this date is used as a process improvement measurement to determine the time elapsed between the start of the assessment and the first clinical service. For data collection purposes, this date can precede the opening date. For billing purposes, it cannot. If the assessment is billed to SUPR through DARTS, this date should match the first assessment billing date. Additionally, this date will default to the discharge date for any admission assessment that results in a problem area of “#5” - None.

Family Income/Dependents Override:  
This field is required if the client/patient income exceeds the eligibility requirements. Select 1–7 from the following reasons to override the criteria:
1. a dependent adult whose spouse or other responsible party is unwilling to assume financial responsibility for the cost of treatment, and the dependent adult would, as a result, be denied access to treatment services; or  
2. a dependent minor who is not Medical Benefits, All Kids and Family Care eligible and/or whose parent(s) or legal guardian is unwilling to assume financial responsibility for the cost of treatment or intervention, and the dependent minor would, as a result, be denied access to treatment or intervention services; or  
3. a pregnant woman who is not Medical Benefits, All Kids and Family Care eligible and has no insurance benefit that covers the cost of treatment; or
4. a member of a family unit whose combined debt for prior medical expenses (not covered by insurance) exceeds 7.5% of the total gross family income, and the individual would be denied access to treatment due to the unwillingness or inability of the family to assume further debt; or
5. a patient with an extenuating circumstance that meets any additional hardship guidelines adopted by the provider=s governing body; or
6. an individual for whom the fee is the sole inhibitor to accept treatment; or
7. other approved governing body criteria.

Diagnosis

An entry into this field is not required for early intervention clients. For treatment patients, an entry must be made in at least one field and a substance use disorder diagnosis is required as one of these fields unless Problem Area #4, #5 or #7 is selected.

If Problem Area #4 - Co-Dependence is selected, the diagnosis will be automatically entered by DARTS and only PEV, Level 1 and CM can be entered. (The ICD-10 Co-Dependence diagnosis code is “Z65.9”)

If Problem Area #5 - None is selected, the diagnosis code will be automatically entered in DARTS. (The ICD-10 “None” diagnosis code is “Z03.89”)

If Problem Area #7 - Gambling is selected, there must be a Gambling diagnosis code entered. (The ICD-10 code is F63.0)

Use of the second field and third fields are optional unless the patient is identified as MISA, in which case at least one of the diagnosis fields must contain a mental health diagnosis, or unless Problem Area #6 - Alcohol/Drugs and Gambling is selected in which case at least one of the diagnosis fields must contain gambling diagnosis.
