## OUT-PATIENT CERTIFICATE

Re: \_\_\_\_\_  
(name)

I personally informed the above-named individual of the purpose of this examination and that he or she did not have to speak to me, and that any statements made might be related in court as to the individual's clinical condition or need for services. Additionally, if this examination was for the purpose of determining that the above-named individual is mentally retarded and dangerous, I informed the individual of his or her right to speak with a relative, friend or attorney before the examination, and of his or her right to have an attorney appointed for him or her if he or she so desired.

\_\_\_\_\_  
Signature of Examiner

On \_\_\_\_\_, \_\_\_\_\_, at \_\_\_\_\_  a.m.  p.m. I personally examined the  
(date) (year) (time)

above-named individual. The examination was conducted at \_\_\_\_\_  
(name of location)

Based on the foregoing examination it is my opinion that he or she is:

A person who would meet the criteria for admission on an inpatient basis as specified in Section 1-119\* in the absence of treatment on an outpatient basis and for whom treatment on an outpatient basis can only be reasonably ensured by a court order mandating such treatment; or;

A person with mental illness which, if left untreated, is reasonably expected to result in an increase in the symptoms caused by the illness to the point that the person would meet the criteria for commitment under Section 1-119\*, and whose mental illness has, on more than one occasion in the past, caused that person to refuse needed and appropriate mental health services in the community.

- \*-119: (1) A person with mental illness who because of his or her illness is reasonably expected, unless treated on an inpatient basis, to engage in conduct placing such person or another in physical harm or in reasonable expectation of being physically harmed; or  
(2) A person with mental illness who because of his or her illness is unable to provide for his or her basic physical needs so as to guard himself or herself from serious harm without the assistance of family or others, unless treated on an inpatient basis; or  
(3) A person with mental illness who:  
(i) refuses treatment or is not adhering adequately to prescribed treatment;  
(ii) because of the nature of his or her illness, is unable to understand his or her need for treatment; and  
(iii) if not treated on an inpatient basis, is reasonably expected, based on his or her behavioral history, to suffer mental or emotional deterioration and is reasonably expected, after such deterioration, to meet the criteria of either paragraph (1) or paragraph (2) of this section.

I base my opinion on the following (include clinical observations, factual information):

I believe that the individual is subject to (check one):  involuntary outpatient admission and is in need of immediate hospitalization  
 involuntary outpatient admission and is not in need of immediate hospitalization
