

Division of Mental Health

Director Diana Knaebe

- DHS/DMH Vision for the future of Illinois' mental health services
- How Certified Community Behavioral Health Clinics (CCBHCs) fit into that vision

**Illinois' Substance Abuse and
Mental Health Services
Administration (SAMHSA) Planning
Grant for Certified Community
Behavioral Health Clinics**

Grantee
Conversation #1

Grant Expectations

The CCBHC Planning Grant funds Illinois to:

1. Engage stakeholders and coordinate activities across agencies to ensure services are accessible and available;
2. Certify community behavioral health clinics;
3. Establish a prospective payment system;
4. Assure State and CCBHC level capabilities to collect and report the claims/encounter and quality measure data elements that are required for demonstration grant participation; and
5. Submit an application to participate in the demonstration program.

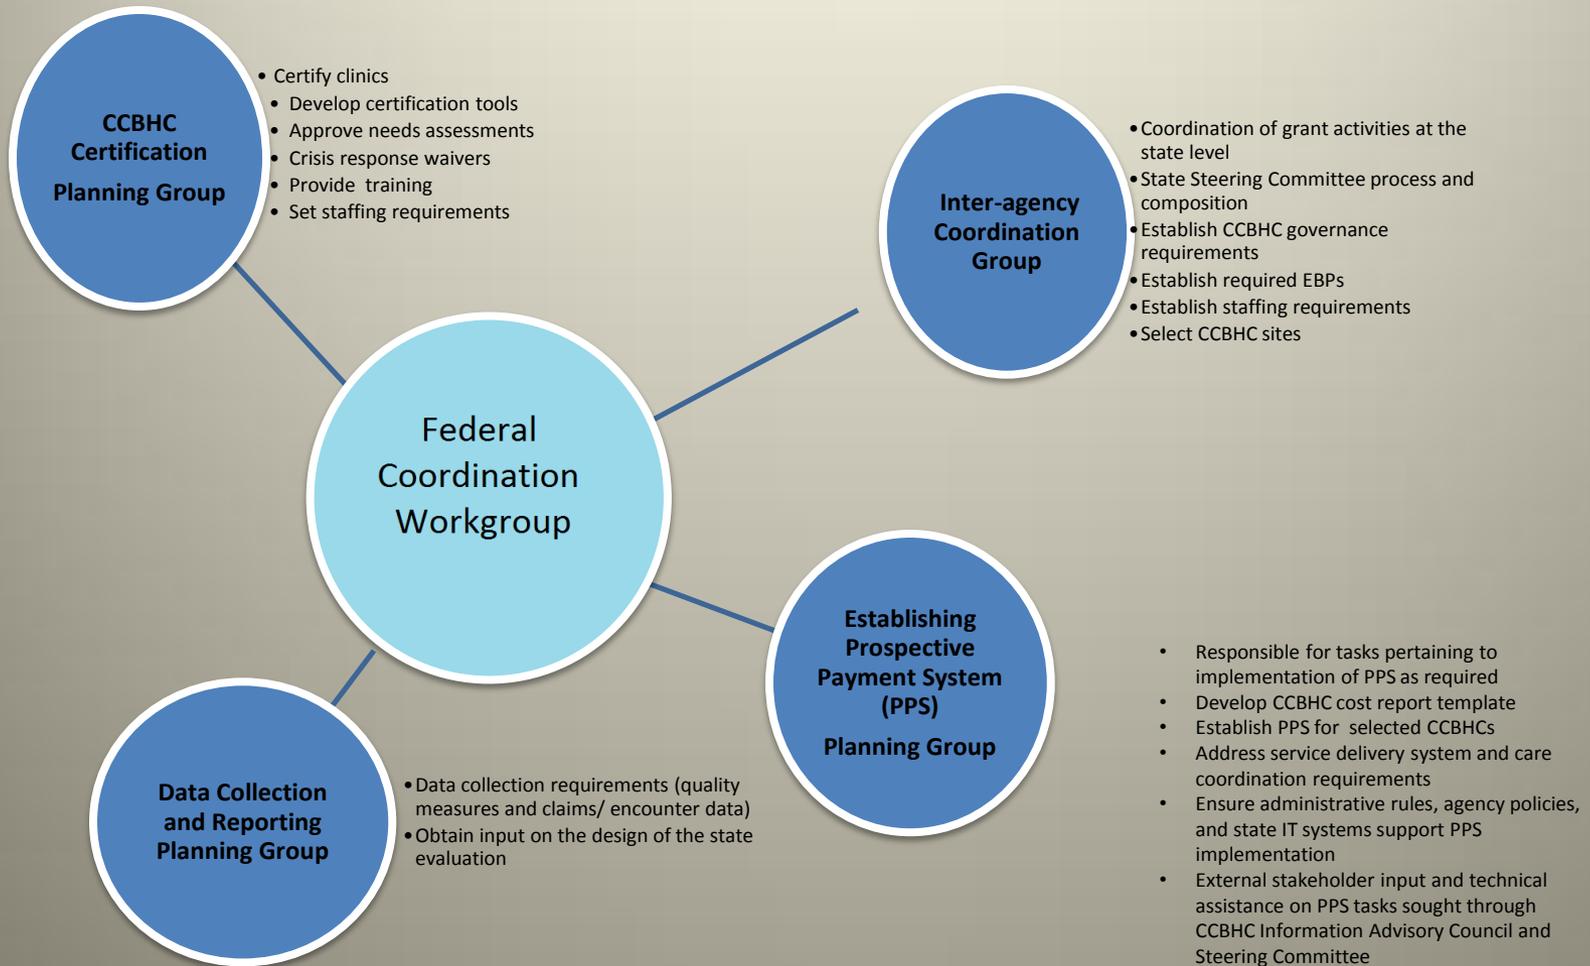

Demonstration Program Goals

- Provide the most complete scope of services under the criteria to individuals eligible for medical assistance under the state Medicaid program;
- Improve the availability of, access to, and participation in, services under the criteria for individuals eligible for medical assistance under the state's Medicaid program;
- Improve availability of, access to, and participation in assisted outpatient mental health treatment in the state;
- Demonstrate the potential to expand available behavioral health services in a demonstration area and increase the quality of such services without increasing net federal spending.

Planning Groups

- Planning Groups parallel the four grant program expectations: stakeholder engagement and coordination; establish a Prospective Payment System (PPS); certify clinics; and plan to participate in the demonstration.
- Groups will feature peer-to-peer discussion and may include topical presentations.

Planning Groups

Interagency Coordination Group

- Coordination of grant activities at the state level
- State Steering Committee process and composition
- Establish CCBHC governance requirements
- Establish required Evidence Based Practices (EBPs)
- Establish staffing requirements
- Select CCBHC sites

CCBHC Certification Planning Group

Certify Clinics Using Criteria

- Creating and Finalizing CCBHC Application Process
- Certifying at least two community behavioral health clinics
 - Assisting clinics to meet certification standards
 - Facilitating cultural, procedural and organizational changes
 - Assisting CCBHCs with improving the workforce
 - Recruiting and training the workforce
 - Conducting community needs assessments including consumer and family input

Prospective Payment System (PPS) Planning Group

- Comprised of staff from the Department of Healthcare and Family Services and the Department of Human Services, Divisions of Mental Health and Alcoholism and Substance Abuse
- Responsible for tasks pertaining to implementation of PPS as required for CCBHC Demonstration:
 - Develop CCBHC cost report template
 - Establish PPS for selected CCBHCs
 - Address service delivery system and care coordination requirements
 - Ensure administrative rules, agency policies, and state IT systems support PPS implementation
- External stakeholder input and technical assistance on PPS tasks sought through:
 - CCBHC Information Advisory Council
 - CCBHC Steering Committee

Data Collection and Reporting Planning Group

- Collecting and reporting required quality measures: from CCBHCs and at the state level
- Mechanisms for identifying CCBHCs and CCBHC consumers in Medicaid Management Information System (MMIS), claims, and encounter data
- The evaluation planning team will be gathering information during the Planning Grant period to help inform the evaluation design

CCBHC Information Advisory Council

- Created in November, 2015
- Purpose: Ensure a flow of information between DMH and all key Stakeholders and to keep all lines of communication open
- Membership: Members of Illinois Trade Associations, Consumer/Family Networks, Advocates

CCBHC Steering Committee

- Orientation / First Meeting – March 22 2016
- 11 Member Steering Committee
 - 6 representatives individuals with lived experience and / or family members
 - 5 volunteers representing providers

Monthly meetings will be scheduled

Letter of Intent Update

44 LOIs were received

Request for Information process

- RFI will be distributed this week to 40 providers
- 30 day response

Project Oversight

- The project manager meets weekly with the Interagency Workgroup, more frequently as needed.
