

Per APA guidelines and the September 2016 DSM-5® Update Supplement, changes are being made to the current diagnosis codes. As the table below shows, the old diagnosis codes may be used through September 30, 2016 and the new codes may be used beginning October 1, 2016. The Collaborative is in the process of updating these codes in the system as well as Appendix A (DSM-5 / ICD-10 MH Diagnostic Categories, Codes, and Descriptions) of the Batch Registration Submission Guide on the Collaborative website. Another communication alert will be sent to providers later this week once the batch guide has been updated.

<b>MH Diagnostic Category</b>	<b>Long Description for MH Diagnostic Category</b>	<b>Old MH ICD Code (for use through September 30, 2016)</b>	<b>New MH ICD Code (for use beginning October 1, 2016)</b>	<b>Description for MH ICD Code</b>	<b>Long Description for MH ICD Code</b>
