

Due to technical difficulties with Adobe registration, the 5/19/16 GATU webinar, Applying Indirect Cost Rates to the Budget, is being postponed to Wednesday, 5/25/16. Apparently Adobe updated their platform after last week's webinar. We want to use the upgrade and avoid log-on issues experienced last week.

GATA will also post a rescheduling notice on the GATA website, www.grants.illinois.gov.

A registration link for the webinar will be provided from the GATA website, www.grants.illinois.gov, by close of business Friday, 5/20. This link will enable entities to register for the webinar. An automated Notice of Registration will be returned to each registrant. A downloadable copy of the presentation will be provided with the Notice of Registration.

Please note, through Adobe Event GATA can accommodate up to 1,000 registrants. Group registration is strongly encouraged. Registration is on a first come, first serve basis. It is expected that all registrants will participate in the webinar as each registrant accounts for one of the 1,000 available log-ins.
