

We are sharing this information to ensure that all provider executives and trade associations are aware of this information, which was shared by our Administrative Service Organization with provider MIS staff earlier today:

Good afternoon,

Please be advised that a new version of the Batch Registration Submission Guide is now available on the Collaborative website. Version 5.3 includes updates to thirteen diagnosis codes in Appendix A (DSM-5 / ICD-10 MH Diagnostic Categories, Codes, and Descriptions). These new codes became effective October 1, 2016. You can access the guide on the Collaborative website by clicking on the link below.
