Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

a. Target Group(s). Under the waiver of Section 1902(a)(10)(B) of the Act, the State limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:

b. Additional Criteria. The State further specifies its target group(s) as follows:

Participants must be assessed as eligible for ICF/IID level of care, must reside within the State of Illinois and not be in need of nursing assessment, monitoring, intervention, and supervision of their condition or needs on a 24-hour basis. The Waiver does not serve individuals who need services solely due to physical conditions, but rather serves individuals with Intellectual Disabilities or conditions similar to Intellectual Disabilities, thus requiring an ICF/IID level of care.

The number of individuals served each year will be based on available appropriations. New enrollees will be selected from the Prioritization of Urgency of Need For Services (PUNS) database, a database maintained by the Operating Agency of individuals potentially in need of state-funded DD services within the next five years. The selection criteria will provide for selection of individuals on several bases, including urgency of need, length of time on the database, and randomness.

c. Transition of Individuals Affected by Maximum Age Limitation. When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (select one):

- ✔ Not applicable. There is no maximum age limit
- ☐ The following transition planning procedures are employed for participants who will reach the waiver’s maximum age limit.
Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (1 of 2)

a. Individual Cost Limit. The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (select one). Please note that a State may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

- **No Cost Limit.** The State does not apply an individual cost limit. Do not complete item B-2-b or item B-2-c.
- **Cost Limit in Excess of Institutional Costs.** The State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the State. Complete items B-2-b and B-2-c.

The limit specified by the State is (select one):

- A level higher than 100% of the institutional average.
  - Specify the percentage: 
- Other
  - Specify:
  
- **Institutional Cost Limit.** Pursuant to 42 CFR 441.301(a)(3), the State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. Complete items B-2-b and B-2-c.
- **Cost Limit Lower Than Institutional Costs.** The State refuses entrance to the waiver to any otherwise qualified individual when the State reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the State that is less than the cost of a level of care specified for the waiver.

Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.

The cost limit specified by the State is (select one):

- The following dollar amount:
  - Specify dollar amount: 
- The dollar amount (select one)

B-2: Individual Cost Limit (2 of 2)

Answers provided in Appendix B-2-a indicate that you do not need to complete this section.

b. Method of Implementation of the Individual Cost Limit. When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

c. Participant Safeguards. When the State specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the State has established the following safeguards to avoid an adverse impact on the participant (check each that applies):

- The participant is referred to another waiver that can accommodate the individual's needs.
- Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

Other safeguard(s)

Specify:

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

a. Unduplicated Number of Participants. The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The State will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

b. Limitation on the Number of Participants Served at Any Point in Time. Consistent with the unduplicated number of participants specified in Item B-3-a, the State may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the State limits the number of participants in this way: (select one):

- The State does not limit the number of participants that it serves at any point in time during a waiver year.
- The State limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

c. Reserved Waiver Capacity. The State may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (select one):

- Not applicable. The state does not reserve capacity.
- The State reserves capacity for the following purpose(s).

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

d. Scheduled Phase-In or Phase-Out. Within a waiver year, the State may make the number of participants who are served subject to a phase-in or phase-out schedule (select one):

- The waiver is not subject to a phase-in or a phase-out schedule.
- The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.
e. Allocation of Waiver Capacity.

Select one:

- Waiver capacity is allocated/managed on a statewide basis.
- Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities.

f. Selection of Entrants to the Waiver. Specify the policies that apply to the selection of individuals for entrance to the waiver:

Individuals potentially in need of these services are enrolled in the State’s Prioritization of Urgency of Need for Services (PUNS) database by one of the contracted entities serving as access points. This database records demographic and clinical information regarding the individual and his/her circumstances, services currently received, and services needed. As appropriations are available, individuals are selected for authorization for Waiver services via an automated process that focuses on the individual's needs and the family's circumstances (where applicable). Entrance to the Waiver for Adults with Developmental Disabilities of otherwise eligible applicants is deferred via this process until capacity becomes available as a result of turnover or the appropriation of additional funding by the legislature.

The intake assessment tool and corresponding PUNS manual is available on the Operating Agency's website.

For residential services, the State gives service priority to eligible participants according to the following priority population criteria in priority order, beginning with the most critical need:
1) Individuals who are in crisis situations (e.g., including, but not limited to, participants who have lost their caregivers, participants who are in abusive or neglectful situations);
2) Individuals who are wards of the Illinois Department of Children and Family Services (DCFS) and are approaching the age of 18 and individuals who are aging out of children's residential services funded by the Illinois Department of Human Services (DHS), Division of Developmental Disabilities;
3) Individuals who reside in State-Operated Developmental Centers;
4) Bogard class members, i.e., certain individuals with developmental disabilities who currently reside or previously resided in a nursing facility;
5) Individuals with Intellectual Disabilities who reside in State-Operated Mental Hospitals;
6) Individuals who reside in private ICFs/IID; and
7) Individuals with aging caregivers.

For home-based supports, the State gives service priority to eligible participants who have been identified as individuals who are currently not receiving any support services from the OA (except vocational rehabilitation services). Within this population, if requests exceed available capacity, the State will prioritize:
1) Individuals whose primary caregiver is age 60 or older, but is not yet in crisis; or
2) Individuals who have exited special education within the last five years; or
3) Individuals who are living with only one caregiver.

The number of individuals served each year will be based on available appropriations. New enrollees will be selected from the Prioritization of Urgency of Need For Services (PUNS) database, a database maintained by the Operating Agency of individuals potentially in need of state-funded DD services within the next five years. The selection criteria will provide for selection of individuals on several bases, including urgency of need, length of time on the database, and randomness.

B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR §441.303(a), Appendix B-5 must be completed when the State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.

a. Use of Spousal Impoverishment Rules. Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

Note: For the five-year period beginning January 1, 2014, the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.

☑ Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the State uses spousal post-eligibility rules under §1924 of the Act. Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after December 31, 2018.

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018 (select one).

☐ Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.

In the case of a participant with a community spouse, the State elects to (select one):

☐ Use spousal post-eligibility rules under §1924 of the Act.
   (Complete Item B-5-c (209b State) and Item B-5-d)

☐ Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State)
   (Complete Item B-5-c (209b State). Do not complete Item B-5-d)

☐ Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The State uses regular post-eligibility rules for individuals with a community spouse.
   (Complete Item B-5-c (209b State). Do not complete Item B-5-d)

• The State uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.
Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

a. Reasonable Indication of Need for Services. In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services:

i. Minimum number of services.

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is [ ]

ii. Frequency of services. The State requires (select one):
   • The provision of waiver services at least monthly
   • Monthly monitoring of the individual when services are furnished on a less than monthly basis

   If the State also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:

   [ ]

b. Responsibility for Performing Evaluations and Reevaluations. Level of care evaluations and reevaluations are performed (select one):

   • Directly by the Medicaid agency
   • By the operating agency specified in Appendix A
   • By an entity under contract with the Medicaid agency.
   
   Specify the entity:

   [ ]

   • Other
   
   Specify:

   Level of care evaluations and re-evaluations are performed by the Independent Service Coordination (ISC) entities under contract with the Operating Agency.

c. Qualifications of Individuals Performing Initial Evaluation: Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

   Persons making the initial evaluations must be Qualified Intellectual Disabilities Professionals (QIDPs) as defined in Federal ICF/IID regulations.

d. Level of Care Criteria. Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the State's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

   Required assessments and level of care criteria are described fully in the Operating Agency's screening manual for developmental disabilities, which is used by all individuals conducting waiver screening. The manual is available on the Operating Agency's website.
Chapter 200 of the manual describes the required assessments and qualifications for professionals conducting the assessments. In brief, the following assessments of waiver applicants are required to make an initial waiver level of care determination:

For applicants with mental retardation:
• Valid psychological evaluation by a qualified professional that documents diagnosis, cognitive and functional limitations and age of onset.

For applicants with cerebral palsy or epilepsy, or a related condition:
• Physical examination and medical history that documents the diagnosis.

For applicants with Autism:
• Psychiatric evaluation by a licensed psychiatrist and a psychosocial assessment.

For all applicants:
• Inventory of Client and Agency Planning (ICAP).
• Medical review consisting of a physical examination by a qualified professional, medical history and medication review.
• Other assessments as needed to determine service needs.

Illinois uses the same process for determining Waiver eligibility as it does for ICF/IID eligibility.

For ongoing re-determination of Waiver level of care, a current ICAP is required.

The MA will provide oversight to the OA of the monitoring of redeterminations of the Level of Care through numerous methods. 1. The OA conducts quarterly and annual reviews of the re-determination process. The OA provides this data on their website for public transparency. The link to the OA’s website is located here: http://www.dhs.state.il.us/page.aspx?item=97777  The MA reviews this data at quarterly waiver meetings. If trends are identified that reveal noncompliance, an action plan would be developed to ensure compliance is achieved. 2. In addition to the OA assessment review and MA oversight, the contracted Quality Improvement Organization reviews a sample of records to ensure compliance. These reports are shared with the Waiver Quality Management team. If noncompliance is identified, an action plan would be developed to address the issue.

e. Level of Care Instrument(s). Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (select one):

☐ The same instrument is used in determining the level of care for the waiver and for institutional care under the State Plan.

☐ A different instrument is used to determine the level of care for the waiver than for institutional care under the State plan.

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

f. Process for Level of Care Evaluation/Reevaluation: Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

The Operating Agency contracts with Independent Service Coordination (ISC) entities that employ QIDPs to complete the evaluations and reevaluations.

As part of the initial level of care determination process, staff of the contracted agencies are responsible for performing or arranging for necessary assessments and collecting other needed information to determine level of care. A Qualified Intellectual Disabilities Professional (QIDP) reviews assessment results and other available information against the level of care criteria and guidance in the screening manual for developmental disabilities. The QIDP uses the totality of the information available and best clinical judgment in making the determination. Assessment information and level of care determinations are documented on forms specified by the Operating Agency. Level of care determinations are transmitted electronically to the Operating Agency.
The re-determination process is essentially the same, except the ongoing level of care determination is based on a current ICAP, individual assessments and other information from the person centered planning process in conjunction with personal knowledge of the participant. Level of care re-determinations are documented on a form specified by the Operating Agency and are transmitted electronically to the Operating Agency.

The OA uses a combination of assessments to determine eligibility, including the ICAP, plus psychological, physical, and psychiatric assessments, as warranted by the individual’s related condition(s). The ICAP gathers information on maladaptive behavior index, adaptive behavior index and service score and level. The psychological assessment gathers information on cognitive/intellectual functioning, developmental history, educational background, adaptive skill level, multi-axial diagnosis that includes a primary diagnosis, and recommendations for future service delivery. The physical assessment gathers information on the individual’s physical condition that includes a review of the following components: skin, head, eyes and vision, ear and hearing, mouth, neck, lymph nodes, breasts, peripheral circulation, male genitalia and hernias, female genitalia, rectum, musculoskeletal system, and the neurological system. The psychiatric assessment gathers information on the individual’s psychiatric history, description of intellectual functioning, memory functioning, orientation, affect, suicidal or homicidal ideation, current attitude, motor behaviors, judgment, thought processes and medication history.

The OA requires the QIDP to review and make the determination based on the assessments that are performed and the information gathered.

g. Reevaluation Schedule. Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (select one):
- Every three months
- Every six months
- Every twelve months
- Other schedule

Specify the other schedule:

h. Qualifications of Individuals Who Perform Reevaluations. Specify the qualifications of individuals who perform reevaluations (select one):
- The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
- The qualifications are different.

Specify the qualifications:

i. Procedures to Ensure Timely Reevaluations. Per 42 CFR §441.303(c)(4), specify the procedures that the State employs to ensure timely reevaluations of level of care (specify):

The Operating Agency has an edit in the computerized payment system to ensure reevaluations are conducted yearly. The edit requires the contracted entity to enter the reevaluation date. If that date is more than one year old, the edit will not allow payments to be made to the entity. On-site reviews are done annually by the OA to ensure that documentation exists and coincides with the reevaluation date entered in the payment system. The payment edit has been found effective in providing an incentive for the contracted entities to complete annual Waiver reevaluations in a timely manner.

j. Maintenance of Evaluation/Reevaluation Records. Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

Evaluation and reevaluation forms are kept by the Independent Service Coordination (ISC) entities under contract with the OA.

Appendix B: Evaluation/Reevaluation of Level of Care
Quality Improvement: Level of Care

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

a. Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
B1 Number and percent of new waiver applicants who had a level of care assessment indicating need for ICF/IID level of care prior to receipt of services.
N: Number of new applicants that complete LOC assessment. D: Number of total applicants.

Data Source (Select one):
Analyzed collected data (including surveys, focus group, interviews, etc)
If 'Other' is selected, specify:
OA database of all new participants and date of LOC assessment.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

As required under the direction of the AA CAP, oversight will be insured by vigilant tracking of performance on the initial LOC evaluation and by the tracking the timeliness of the annual LOC re-evaluations. In addition, there will be extensive monitoring by the contracted Quality Improvement Organization. The QIO team will support the MA with analysis and reporting. Information regarding LOC tracking will be discussed at quarterly OA waiver meetings.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

The OA is responsible for individual remediation of findings where claims were submitted prior to initial LOC assessment. Remediation would include, upon discovery, voiding of prior claims.

The OA is responsible for remediation of late redeterminations. Remediation would include, upon discovery, automatic withholding of payment to ISC entity until redetermination is completed, and monitoring that redetermination is completed.

The OA is responsible for individual remediation. A POC is submitted by the provider to the OA for approval within 14 days of notification to provider of findings that cannot be corrected immediately while the
reviewers are on site. The provider must correct the findings within 60 calendar days, other than those corrected immediately while the reviewers are on site. In instances of serious findings the provider may be directed by the OA to correct a finding in a much shorter time frame, including instances of immediate correction, where appropriate. In instances where the provider fails to submit a POC or when the provider fails to submit an acceptable plan, the OA may develop and impose a mandatory POC.

The OA is responsible for the resolution of individual issues. The OA provides quarterly reports of individual remediation activities to the MA. Staff of the two State agencies review the reports on a quarterly basis as part of the Waiver Quality Management Committee (QMC) meetings. QMC meeting summaries document the findings and actions taken.

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Level of Care that are currently non-operational.

☐ No

☐ Yes

Please provide a detailed strategy for assuring Level of Care, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

i. informed of any feasible alternatives under the waiver; and

ii. given the choice of either institutional or home and community-based services.

a. Procedures. Specify the State's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
The QIDPs employed by the Operating Agency’s contracted entities inform individuals, and/or their legal guardians, about their options during the level of care determination process. The QIDP presents the individual/legal representative with all service options, including both Waiver and ICF/IID services that the individual is eligible to receive, regardless of availability, in sufficient detail so they are able to make informed choices. If the individual/legal representative does not speak English, has limited proficiency or is non-verbal, the QIDP makes an accommodation. Acceptable accommodations may include use of staff with secondary language skills, translation services, oral assistance and communication devices.

The QIDP provides the individual/legal representative with additional information and materials on the service options they choose to pursue and arranges for and facilitates conversations with potential service providers including visits to the potential providers as indicated.

The IL 462-1238 form, Choice of Supports and Services, specifically documents the decision to choose Waiver services as an alternative to ICF/IID services at this time. This form also states that choice of supports and services may be changed in the future. The form is signed by the individual/legal representative. The form is available in English and Spanish (IL 462-1238S).

b. Maintenance of Forms. Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

Copies of the IL 462-1238 forms are available in English and Spanish and are maintained by the Independent Service Coordination (ISC) contracted entity.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the State uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

The local ISC entities under contract with the Operating Agency serve as access points to the Waiver, and are integrated in their communities. On a daily basis the ISC entities interact with a wide variety of individuals of varying backgrounds, cultures, and languages. The entities have resources to communicate effectively with participants of limited English proficiency in their community, including bilingual staff as needed, interpreters, translated forms, etc.

The Operating Agency has a website, www.dd.Illinois.gov, and a toll-free number, 1-888-DDPLANS, specifically designed for families’ use in learning more about Illinois’ DD service system and in contacting their local entity for assistance with accessing services. Each of these information points is available in both Spanish and English. In addition, brochures and flyers are available in other languages including: Arabic, Bosnian, Chinese, Hindi, Khmer, Korean, Polish, Russian, Urdu and Vietnamese.
