B-1: Specification of the Waiver Target Group(s)

a. **Target Group(s).** Under the waiver of Section 1902(a)(10)(B) of the Act, the State limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. *In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:*

Target Group	Included	Target SubGroup	Minimum Age	Maximum Age	
				Maximum Age Limit	No Maximum Age Limit
<input type="checkbox"/> Aged or Disabled, or Both - General					
	<input type="checkbox"/>	Aged			
	<input type="checkbox"/>	Disabled (Physical)			
	<input type="checkbox"/>	Disabled (Other)			
<input type="checkbox"/> Aged or Disabled, or Both - Specific Recognized Subgroups					
	<input type="checkbox"/>	Brain Injury			
	<input type="checkbox"/>	HIV/AIDS

	<input checked="" type="checkbox"/>	Intellectual Disability	3	21	
<input type="checkbox"/> Mental Illness					
	<input type="checkbox"/>	Mental Illness			
	<input type="checkbox"/>	Serious Emotional Disturbance			

b. **Additional Criteria.** The State further specifies its target group(s) as follows:

Participants must be assessed as eligible for ICF/MR level of care, must need active treatment, must be in need of childrens residential Waiver supports, must reside within the State of Illinois, and must not be in need of nursing assessment, monitoring, intervention and supervision of their condition or needs on a 24-hour basis. Children who are wards of the State are not eligible.

c. **Transition of Individuals Affected by Maximum Age Limitation.** When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (*select one*):

- Not applicable. There is no maximum age limit
- The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.

Specify:

The Childrenf’s Residential Waiver includes children and young adults with developmental disabilities through the age of 21. Adult Developmental Disabilities Waiver services may start at age 18. This four-year transition period is designed to enable participants in the Children’s Residential Waiver to transition easily to other programs including other waivers for adults, as appropriate, or ICF/MR services. We expect that most

participants will choose to transition as they exit the special education system. The State has designed the Children's Residential Waiver so that, as much as possible, eligibility criteria, service definitions, provider qualifications, case management roles and responsibilities, and service implementation are consistent across Waiver programs.

During the course of Waiver services, each participant is assigned an Individual Service and Support Advocate (ISSA) who serves as an independent advocate, participates in support plan development, and monitors service provision. The ISSA will assist the participant and family during the transition period. The ISSA will inform the participant and family about adult service options and ensure necessary eligibility screenings are completed.

Young adults aging out of this Waiver are given priority status for Adult Developmental Disabilities Waiver Services over other individuals enrolled in the State's Prioritization of Urgency of Need for Services (PUNS) database. If an applicant is ineligible for the Adult Waiver, assistance is provided to access non-waiver services, State Plan services, or to other waiver services as appropriate. Independent Service Coordination entities provide assistance and planning for transition.

B-2: Individual Cost Limit (1 of 2)

- a. **Individual Cost Limit.** The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (*select one*). Please note that a State may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

- No Cost Limit.** The State does not apply an individual cost limit. *Do not complete Item B-2-b or item B-2-c.*
- Cost Limit in Excess of Institutional Costs.** The State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the State. *Complete Items B-2-b and B-2-c.*

The limit specified by the State is (*select one*)

- Cost Limit Lower Than Institutional Costs.** The State refuses entrance to the waiver to any otherwise qualified individual when the State reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the State that is less than the cost of a level of care specified for the waiver.

Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. *Complete Items B-2-b and B-2-c.*

b. **Method of Implementation of the Individual Cost Limit.** When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

c. **Participant Safeguards.** When the State specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the State has established the following safeguards to avoid an adverse impact on the participant (check each that applies):

- The participant is referred to another waiver that can accommodate the individual's needs.
- Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

B-3: Number of Individuals Served (1 of 4)

- a. **Unduplicated Number of Participants.** The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The State will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

Table: B-3-a

Waiver Year	Unduplicated Number of Participants
Year 1	295
Year 2	295
Year 3	295
Year 4	295
Year 5	295

- b. **Limitation on the Number of Participants Served at Any Point in Time.** Consistent with the unduplicated number of participants specified in Item B-3-a, the State may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the State limits the number of participants in this way: *(select one)*:

- The State does not limit the number of participants that it serves at any point in time during a waiver year.
- The State limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

d. **Scheduled Phase-In or Phase-Out.** Within a waiver year, the State may make the number of participants who are served subject to a phase-in or phase-out schedule (*select one*):

- The waiver is not subject to a phase-in or a phase-out schedule.
- The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.

e. **Allocation of Waiver Capacity.**

Select one:

- Waiver capacity is allocated/managed on a statewide basis.
- Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

f. **Selection of Entrants to the Waiver.** Specify the policies that apply to the selection of individuals for entrance to the waiver:

Enrollments are completed as capacity becomes available as a result of turnover or additional funds are redirected or newly appropriated by the State legislature.

Entry to the Waiver is offered only to individuals who are determined to be in a crisis situation. The State's guidance for determining the existence of a crisis situation is made public on the Operating Agency's website at http://www.dhs.state.il.us/OneNetLibrary/27896/documents/By_Division/Division%20of%20DD/Community%20Emergency%20Criteria%20-%20Children.pdf. The initial recommendation for a crisis authorization is made by one of the Independent Service Coordination agencies under contract with the OA—the same entities that conduct PUNS assessments and enrollments. Each recommendation is reviewed by the Operating Agency.

Unlike the Children's Support Waiver, the State does not maintain a waiting list for this Waiver since out-of-home residential services are focused on only those children and adolescents who are determined to be in a crisis situation.

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

- a. **Reasonable Indication of Need for Services.** In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services:

Persons making the initial evaluations must be Qualified Intellectual Disability Professionals (QIDPs) as defined in Federal ICFIDD Regulations. QIDPs were formerly referred to as Qualified Support Professionals (QSPs).

d. **Level of Care Criteria.** Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the State's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

The level of care criteria used to evaluate and reevaluate whether an individual needs services through the Waiver will be the same as those used to determine whether an individual is eligible for an ICF/IDD setting known in Illinois as Long Term Care Under Age 22 facilities. Individuals receive a screening to determine eligibility, using procedures and forms provided in the Operating Agency's Procedure Manual. A copy of the manual and the tools are on file with the Medicaid Agency and Operating Agency.

e. **Level of Care Instrument(s).** Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (select one):

- The same instrument is used in determining the level of care for the waiver and for institutional care under the State Plan.**
- A different instrument is used to determine the level of care for the waiver than for institutional care under the State plan.**

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

- f. Process for Level of Care Evaluation/Reevaluation:** Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

The Operating Agency contracts with Independent Service Coordination (ISC) entities that employ QIDPs to complete the evaluations and reevaluations. Each individual will be evaluated to determine his or her functional level in relation to the individual's chronological age, especially in the areas of comparative level of independence, comparative functional skills, and comparative need for the immediate support of a responsible adult. Individuals who have been shown to have an intellectual disability (both cognitively and functionally) or individuals who have been determined to have a related condition (including meeting all four criteria) may be determined to require Active Treatment. The timeliness for psychological assessments (to determine an intellectual disability) and for functional assessments (to determine substantial functional limitations in three out of six major life activity areas) must be dated within one year prior to the PAS for children ages three through 12, within two years for children ages 13 up to age 18 and within five years for individuals 18 up to 21.

The screening agencies must use a formal functional assessment tool for adaptive functioning suitable for children. The re-determination criteria are the same as the initial eligibility criteria.

- g. Reevaluation Schedule.** Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (*select one*):

- Every three months
 Every six months
 Every twelve months
 Other schedule

Specify the other schedule:

- h. Qualifications of Individuals Who Perform Reevaluations.** Specify the qualifications of individuals who perform reevaluations (*select one*):

- The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
 The qualifications are different.

Specify the qualifications:

- i. Procedures to Ensure Timely Reevaluations.** Per 42 CFR §441.303(c)(4), specify the procedures that the State employs to ensure timely reevaluations of level of care (*specify*):

The Operating Agency has an edit in the computerized payment system to ensure re-evaluations are conducted yearly. The edit requires the contracted entity to enter the re-evaluation date. If that date is more than one year old, the edit will not allow payments to be made to the entity.

- j. Maintenance of Evaluation/Reevaluation Records.** Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

Evaluation and re-evaluation forms are kept by contracted entities for the mandatory five years or more. Results are maintained electronically by the Operating Agency for three or more years.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

- a. Methods for Discovery: Level of Care Assurance/Sub-assurances**

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

- a. *Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

B1 Number and percent of new waiver applicants who had a level of care assessment indicating need for ICF/DD level of care prior to receipt of services.
Numerator: Number of new applicants that complete level of care assessment.
Denominator: Number of total applicants.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

The OA reviews the findings and identifies the most appropriate response. General responses may include work with participants and their providers, retraining staff, voiding claims, technical assistance, increased monitoring, revising service plans, and requiring plans of correction. The OA is responsible for seeing that individual issues are resolved. The OA provides quarterly reports of these findings and remediation activities to the MA. Staff of the two State agencies review the reports on a quarterly basis.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

- i. informed of any feasible alternatives under the waiver; and
- ii. given the choice of either institutional or home and community-based services.

- a. **Procedures.** Specify the State's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The QIDPs employed by the Operating Agency's contracted ISC entities inform individuals and/or their legal guardians, about their options during the level of care determination process. The QIDP presents individuals/legal representatives with all service options, including both Waiver and ICF/IDD services that the individual is eligible to receive, regardless of availability, in sufficient detail so they are able to make informed choices. If the individual/legal representative does not speak English, has limited proficiency or is non-verbal, the QIDP makes accommodation for that. Acceptable accommodation may include use of staff with secondary language skills, translation services, oral assistance and communication devices.

- b. **Maintenance of Forms.** Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

Copies of the Freedom of Choice IL462-1238(R-11-07) forms, available in both English and Spanish, are maintained by the contracted ISC entity.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the State uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

The ISC entities under contract with the Operating Agency that serve as access points are integrated in their communities and on a daily basis interact with a wide variety of individuals of varying backgrounds, cultures, and languages. The entities have resources available to communicate effectively with individuals of limited English proficiency in their community, including bilingual staff as needed, interpreters, translated forms, etc.

The Operating Agency has a website, www.dd.Illinois.gov, and a toll-free number, 1-888-DDPLANS, specifically designed for families' use in learning more about Illinois' DD service system and in contacting their local entity for assistance with access. Each of these information points is available in both Spanish and English.
