A. Description of Use of Part C Funds for the Lead Agency

Early Intervention Services Revolving Fund. (325 ILCS 20/20)

In 1996, Illinois created a revolving fund known as the Early Intervention Services Revolving Fund, and is held by the lead agency. The Early Intervention Services Revolving Fund is used to the by the lead agency to pay for administrative and early intervention services to infants and toddlers. Expenditures from the Early Intervention Services Revolving Fund are made in accordance with applicable E.I. program provisions and are limited to those purposes and amounts specified under applicable program guidelines.

Funding of the Fund comes from family fees, insurance company payments, federal financial participation received as reimbursement for expenditures from the Fund, and State appropriations made to the Department of Human Services for payment for early intervention services under the Early Intervention Services System Act. (325 ILCS)

Disbursements from the Early Intervention Services Revolving Fund are made in accordance with established Department of Human Services policy.

The state has been instructed that this application should be submitted without reference to funds that will accrue to the program from the federal stimulus bill. The table below represents the program-funding plan in the absence of that funding. It would have been necessary to reduce expenditures significantly starting in the second half of FFY08/SFY09. Program reductions would have been even greater than they appear from these totals because the plan was to implement a program that would have had a cumulative impact as new cases were reviewed and renewed. This means there is little impact early but a great impact by the end of the project.

Thanks to the stimulus package, the estimated and projected costs below do not reflect current plans. The project that would have been implemented quickly will now be integrated into the program over a longer period of time with the long-term goals of improving statewide equality in program administration, fidelity to program philosophy and state laws and rules, and insuring program stability, including after the stimulus funding has been exhausted.

A. System of Payments / Use of Insurance / Program Income

The State

X_ does (check as applicable)

does not (check as applicable)

have a system of payments for Part C services under 20 U.S.C. 1432(4)(B) which may include use of public and/or private insurance or family fees, such as a sliding scale. Any family fees are treated as 'program income' for purposes of 34 CFR §80.25 and are not included in the State's determination of State and local expenditures for purposes of 20 U.S.C. 1437(b)(5)(B). *Note: If the State has adopted new or has revised its existing policies and procedures regarding its system of payments, it must submit these new and/or revised policies and procedures under Item 7 in Section II.A above.*

B. Restricted Indirect Cost Rate/Cost Allocation Plan Information

(Note: To be completed if Lead Agency is not a State Educational Agency.)

If the lead agency is not a State educational agency (as well as any outlying areas that have the Department of Interior as its cognizant Federal agency, even if an SEA) check the applicable status below (more than one check mark may be necessary) and enclose appropriate documentation for this Federal Fiscal Year.

The lead agency has a final restricted indirect cost rate or cost allocation plan that has been approved by the State lead agency's cognizant Federal agency and is in effect for this Federal fiscal year (FFY) (ending on June 30, 2010). (Attach a copy of the approved restricted indirect cost rate agreement or cost allocation plan.)

The lead agency has either a provisional or final restricted indirect cost rate or cost allocation plan that expires or expired on _____ and the State is in the process of negotiating a new restricted indirect cost rate agreement or cost allocation plan that will be in effect for the period _____.² The State lead agency will continue to charge or bill the Part C grant using the provisional or previously approved final restricted indirect cost rate or cost allocation plan until a new rate or plan is negotiated and approved by the State's cognizant Federal agency, at which point the State lead agency must make appropriate adjustments for applicable FFYs. The State acknowledges that a final restricted indirect cost rate may result in an adjustment of the final audited expenditures allowable to be charged to the Part C grant and the Department's approval of this FFY Part C application with an expired or provisional restricted indirect cost rate does not constitute approval of that rate as the final rate for the lead agency for this FFY. When a final restricted indirect cost rate is approved, the lead agency must submit to OSEP: (1) a copy of the "final" restricted indirect cost rate agreement; and (2) details of adjustments made to past GAPS draw downs in light of the "final" rate. (Attach a copy of the previously approved restricted indirect cost rate agreement or cost allocation plan.)

X_ No indirect costs are charged to the Part C grant. The total amount of the Federal Part C grant is used for allowable direct costs.

Other, explanation attached.

² A "provisional" indirect cost rate is a temporary rate established for a future prospective period of time to permit budgeting, obligations, and payment of funds by awarding agencies until such time as the actual indirect costs can be determined and a final rate is established for the applicable period; provisional rates are subject to adjustment by issuance of a "final" rate based on actual indirect costs incurred for the period (usually the organization's fiscal year).
