

BATCH SUBMISSION REQUIREMENTS

VALID AS OF December 30, 2013

File Requirements

The "Batch Submission Requirements" document has been updated to reflect recent changes necessary to meet the final requirements of the FOID legislation. The following reflect changes to the previous "Batch Submission Requirements" document dated Nov. 5, 2013.

Changes:

1. Changed the Example Records
2. Facility Record Layout
 - a. Removed the "Facility Medicaid ID #" field
3. Patient Record Layout
 - a. Removed the "Facility Medicaid ID #" field
 - b. Added "Patient Middle Name" field
 - c. Added "Patient Name Suffix" field
 - d. Changed "Patient Address" field to "Patient Address 1"
 - e. Added "Patient Address 2" field
 - f. Removed "Facility Patient ID" field
 - g. Changed Rules for Admission Type/Event Type
 - h. Added date format to "Docket Date" field
 - i. Changed "County Code" field name to "Docket County Code", increased maximum field length and provided an example
 - j. Added "Deletion Reason"
4. Trailer Record Layout
 - a. Removed the "Facility Medicaid ID #" field
5. Appendix A
 - a. Changed rules for Admission Type/Event Type
 - b. Changed "Event Type" values for Admission Type 2

The batch submittal files are to be created as ASCII DOS Text Files with each field separated by ~ (tilde) and each record delimited by CR/LF(ODOA in hex format), i.e.; tilde(~) delimited fields followed by a carriage return character and a line feed character. The file name is to be 'FOID.DAT'.

There are three types of records to be submitted:

1. The Facility (H) record identifies the reporting facility, the contact person, and the number of patient records.
2. The Patient (P) record describes the patients seen at the facility during that cycle.
3. The Trailer (T) record provides file audit counts and as the last record, is followed by the end-of-file character (1A in hex format).

The general format of the files submitted to DHS should be:

A Facility (H) record is to be followed by the corresponding Patient (P) records (one per patient).
A Trailer (T) record provides file audit counts and is included at the end of each file.

**All fields are required, unless otherwise noted. The tilde (~) will still be present.

NOTE: All filler fields have been removed from file layouts as of October 2013.
