## Links to External Resources

- [Illinois Department of Public Health Opioid Data Dashboard](#)
  - An Illinois Department of Public Health dashboard that includes data and information on how opioids have been affecting Illinois at the zip code and county level.
- [Illinois Public Health Community Map](#)
  - The Illinois Public Health Community Map web feature makes information about the quality of health in communities available to the public, and highlights socioeconomic and racial/ethnic inequities that may exist. Data are presented and displayed geographically by Illinois region, county, and by sub-region and zip code for Cook County and Chicago. A major focus of the website is on access to health care. An array of measures are presented that can serve as a screening tool for identifying problems involving access to primary care and other quality issues.
- [Illinois School Report Card](#)
  - The Illinois State Board of Education annually releases a report card that shows how each school, district, and the state is performing on a wide range of educational goals. The Illinois Report Card has two main components: the At-a-Glance Report that provides important information about each school or district in a one-page, printable format; and the online report card that delivers in-depth information with explanations of each indicator available. You can type any school or district name into the text box under Find Your School.
- [EIG Distressed Communities Index by Zip Code](#)
  - The Distressed Communities Index (DCI) examines economic well-being at the zip code level in order to provide a detailed view of the divided landscape of American prosperity. The centerpiece of the DCI is an interactive map that allows users to explore data at the zip code, county, and congressional district levels by state.
