Allegation

On November 13, 2017, the Office of the Inspector General received a reported allegation of neglect from CTF Illinois. It is alleged that XXXXXX failed to give XX XXXXXXXX XXXX her 4:00 p.m. dose of XXXXXXXXXXXX on November 11 and 12, 2017 and XX XXXXXX had a seizure on November 13, 2017.

Synopsis

XXXXXX failed to administer XX XXXXXX 4:00PM dose of XXXXXXXXXXXX on November 11, 2017, and her 4:00PM dose on November 12, 2017. On November 13, 2017, XX XXXXXX had a five-minute grand mal seizure with lip-biting and her seizure was followed by a post-ictal state, as described by EMTs who took her to the ER. At the ER, it was discovered she sustained a small hematoma over her left eyebrow, which required no treatment. According to XXXXXX, when XX XXXXXX missed getting her two doses (November 11, 2017, and November 12, 2017), this lowered her XXXXXX threshold and caused her to have a XXXXXXXX.

Findings

Based on the facts in this case the following was concluded: The allegation of neglect is substantiated against XXXXXX.

Recommendations

The Office of The Inspector General recommends that the Rule 116 Medication Administration guidelines be reviewed with XXXXXX to ensure she understands the importance of administering XX XXXXXX' anti-XXXXXXXXX medications as they are prescribed.
