

Healthy Kids need checkups for preschool, Head Start, school, camp, childcare, sports programs, WIC and just to stay healthy!

Having All Kids or a MediPlan card means you can take your child to the doctor for a checkup, to the dentist to fill a cavity, or to the eye doctor to get a prescription for glasses. It means they can get all the care they need to stay healthy.

Babies, kids and teens can get **FREE** checkups with their All Kids or MediPlan cards. Children with disabilities who have a MediPlan card can get free checkups through age 20.

Healthy Kids checkups include:

- Head to toe exam
- Checks for growth and development
- Immunizations (shots)
- Checks of eyesight, hearing and teeth
- Advice about healthy eating
- Answers to your health questions
- Checks of emotions and behavior
- Referrals to special services if your child needs them

If you have questions about checkups for your child, call your doctor. If you need help to find a doctor or make an appointment, call Illinois Health Connect at 1-877-912-1999 (TTY: 1-866-565-8577). If you live in Adams, Brown, Cook, Henry, Jackson, Kane, Madison, Mercer, Perry, Pike, Randolph, Rock Island, Scott, St. Clair, Washington or Williamson county, call the Illinois Client Enrollment Broker at 1-877-912-8880 (TTY: 1-866-565-8576). The call is free. Or, you may call your managed care organization (MCO) if your medical card shows that you are enrolled in an MCO.

Remember, even young children need good dental care so they do not get cavities or toothaches. Take your child to a dentist regularly starting no later than age one. If you need help to find a dentist, call 1-888-286-2447 (TTY: 1-800-466-7566). The call is free.

If your child is enrolled in All Kids Assist, All Kids Share, All Kids Premium Level 1 or has a MediPlan card, you may get help with transportation to your doctor or dentist. If you have an All Kids card, check the back of the card to find your child's All Kids plan. Call 1-877-725-0569 (TTY: 1-877-204-1012) to find a transportation provider. The call is free.

Be sure to use all the benefits your MediPlan or All Kids card covers for your children.

Make an appointment today for a free Healthy Kids checkup for your child.

Please be sure your child stays healthy by getting their recommended shots!

Has your child been immunized? Getting your child the recommended immunizations for their age is very important! A child who has not been adequately immunized may get sick, become disabled, or could even die.

The chart below provides you with a listing of immunizations your child should receive and at what age they should receive them. If your child has not had the recommended immunizations, call your doctor or local health department to make an appointment right away! If you need help finding a provider, call Illinois Health Connect at **1-877-912-1999 (TTY: 1-866-565-8577)**. The call is free.
