SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM (SNAP) WORK REQUIREMENT - COMMUNITY WORKFARE VERIFICATION

To the SNAP household: The number of hours you must work is determined by dividing your household's total SNAP benefit amount by the State minimum wage of $12.00 hourly. For example, if you are a single person SNAP household and are receiving the maximum amount of SNAP $250 you will need to perform community workfare for an average of 20 hours monthly = ($250 ÷ $12.00) round down.
The number of hours worked is a household obligation. For SNAP households with more than one person, you may choose that only one member will meet the obligation or that the obligation will be split between the non-exempt members.

Your SNAP household required monthly work hours is calculated below.

This section to be completed by FCRC staff only.

Monthly SNAP Benefit Amount	÷	(State Minimum Wage)	=	Your Required Work Hours
		$12.00		0

The person(s) named below will perform the work hours. Check the appropriate box.
